

many catalogue editor receive "new" designs As I and not an inconsiderable number "new", are the result ofare not but partial perforation of known designs reversals of them. or above Illustrated block of six which this is stamps show a They well. should perfin, problem all be the but taken same different separately they could be read ways. Taking them in turn they may have been identified as follows:-

- (i) 10. ("." prevents the second letter being "C")
- (ii) C (or possibly 0)
- (iii) I
- (iv) NC (or possibly NO)
- (v) same as (i)
- (vi) IC (different width to (i) )

The What identification? is the correct postmark gives the being "Nottingham Office". The perfins illustrated Sorting NC partials of the well known of Nottingham Corporation. are It pays to take care with "new" designs.
